INDUSTRIAL SESSION

LATE CALL FOR PAPERS

OBJECTIVE

The **Industrial Session** aims to bridge the gap between academic research and industrial applications in the fields of mechatronics and embedded systems. This session will showcase cutting-edge technologies and innovative solutions developed by leading industry experts and researchers.

Participants will have the opportunity to explore practical implementations of Industry 4.0, AI, and cyber-physical systems, and engage in discussions on the challenges and opportunities in the industrial sector. Contributions are invited in areas such as advanced robotics, intelligent vision systems, smart sensors and actuators, and clean transportation systems.

SESSION CHAIRS

Prof. Giovanni Berselli, Univ. di Genova, Italy
Prof. Adriano Mancini, Univ. Politecnica delle Marche, Italy
Prof. Matteo Palpacelli, Univ. Politecnica delle Marche, Italy
Dr. Eng. Ferdinando Cannella, Head of Industrial Robotics Facility, IIT, Italy
